

Hyundai Motor India - Dashboard Input Table

FY19-FY25 | source-backed values only | standalone/KPI basis where applicable | mix rows are volume mix, not revenue mix

Definition / method notes

Definition / note	Treatment in this table
Year range	Starts at FY19. FY15-FY18 are excluded because clean Hyundai uploaded sources are not available.
Mix shift chart	Use volume mix, not revenue mix. FY24/FY25 fuel mix is domestic fuel volume mix from Q4 FY25 investor presentation.
Revenue growth	Full-series growth uses Turnover KPI because it is available FY19-FY25. Revenue from operations is available for FY21-FY25.
Capacity utilisation	FY21-FY23 from DRHP installed capacity table; FY24/FY25 proxy uses total production / 824,000 stated capacity.
Gross margin	Proxy only. FY24/FY25 = 100% minus material cost %. Not company-disclosed gross margin.
Capex / investment	FY24/FY25 use disclosed annual investment/additional investment, final model should tie to cash-flow capex if required.
Top-selling model	Do not fill without annual model-wise units. Uploaded investor presentation does not disclose annual top-selling model.
